RE: 60 day Notice of Intent To Sue

Dear Sir or Madam:

I am writing on behalf of the Idaho Conservation League ("ICL") to provide Darigold Inc. dba Westfarm Foods ("Westfarm") with notice of our intent to file suit against you for the violations of the Clean Water Act described below.

Westfarm has violated, and reasonably can be expected to continue violating the Clean Water Act, 33 U.S.C. § 1301 et seq., by discharging pollutants (including but not limited to cheese plant wastes) to waters of the United States and to the City of Jerome wastewater system in violation of the limits in Westfarm's current Industrial User Agreement and wastewater permit with the City of Jerome, and in violation of the terms of Westfarm's current EPA-issued NPDES permit (Permit # ID-002793-7).

Specifically, Westfarm's discharges to the City of Jerome's wastewater system caused or contributed to interference and pass through (as defined at 40 C.F.R. § 403.3(i) and (n)) in such system from July 18 through August 5, 2003.

In addition, Westfarm has repeatedly exceeded the limits of its current Industrial User Agreement and Permit with the City of Jerome during the time period noted above when the City experience interference and pass through, and during every month for which we have records. Each and every exceedance of the terms of Westfarm's Industrial User Agreement and Permit with the City of Jerome is a violation of a pretreatment standard and therefore a violation of the Clean Water Act. 40 CFR § 403.5 (d).

Rather than recount in this letter every single violation of each permit limit, we have attached data sheets provided to us by the City of Jerome under the Idaho public records law. These attached sheets detail each violation of Westfarm's permit limitations imposed by the City of

Notice of Intent to Sue

Page 2

Jerome. All entries in the "Flow" columns on each sheet in excess of 0.350 million gallons per day constitute a violation of the Clean Water Act. All entries in the "Total LBS BOD Daily Max" columns on each sheet in excess of 2500 pounds per day constitute a violation of the Clean Water Act. All entries in the "Total LBS TSS Daily Max" columns on each sheet in excess of 1200 pounds per day constitute a violation of the Clean Water Act.

Every month beginning in January 2003 through October 2004, Westfarm has violated at least one, and typically all three of the noted limitations multiple times – sometimes grossly exceeding the limitations. These entries also confirm that Westfarm caused or contributed to interference and pass through of the City's wastewater system during July 18, 2003 through August 5, 2003.

Further, Westfarm has repeatedly exceeded the limits of its own NPDES permit, as Westfarm has itself stated in discharge monitoring reports provided to EPA. Westfarm itself retains the best information on such violations, but they are summarized as follows (exact dates provided as available):

Violations of limits on biological oxygen demand (BOD) on or during 1/23/03, 2/4/03, 3/2/04;

Violations of limits on fecal coliform during February 2003, July 2003, September and October 2003, January 2004, March through September 2004.

Violations of limits on pH during April 2003.

All these violations of permit limits and prohibitions against causing or contributing to interference in the City of Jerome's wastewater system represent historic and ongoing violations of the Clean Water Act which are likely to continue.

Sections 301(a) and 402 of the Clean Water Act make it unlawful for any person to discharge a pollutant to the waters of the United States, unless the person has obtained and complies with the terms and requirements of a valid NPDES permit. Discharging pollutants to waters of the US in violation of the Clean Water Act's requirements subjects the violator to civil and/or criminal liability. 33 U.S.C. § 1319.

Section 307 of the Clean Water Act renders it "unlawful for any owner or operator of any source to operate any source in violation of any such effluent standard or prohibition or pretreatment standard." 33 U.S.C. § 1317 (d). It is unlawful for any user of publicly owned treatment works ("POTW") to "introduce into a POTW any pollutant(s) which cause Pass Through or Interference . . ." 40 C.F.R. § 403.5 (a)(1).

Notice of Intent to Sue
Page 3

The Clean Water Act authorizes citizen enforcement actions "against any person . . . who is alleged to be in violation of an effluent standard or limitation under this chapter," see 33 U.S.C. § 1365(a)(1), which includes discharges in violation of permit terms and pretreatment requirements. See 33 U.S.C. § 1365(f); City of Milwaukee v. Illinois, 451 U.S. 304, 310-11 (1981) ("it is illegal to discharge pollutants into the Nation's waters except pursuant to permit"). In addition to injunctive and other relief, penalties of up to \$27,500 per day per violation (for violations before March 15, 2004) and \$32,500 per day per violation (for more recent violations) may be imposed for violating the Clean Water Act. 33 U.S.C. § 1319(d); 69 Fed.Reg. 7121 (Feb.13, 2004). The violations identified in this letter and any further violations as may be discovered through the course of litigation will be subject to such penalties.

Accordingly, ICL is hereby putting you, as well as any employees, agents, corporations, or other entities under your control that have any ownership, management, or other control interest in the property at issue, on notice of our intent to bring legal action under the Clean Water Act and to seek injunctive relief as well as award of penalties and costs, including reasonable attorney and expert fees.

As the U.S. Supreme Court and other courts have held, one of the principal purposes of the notice requirement in the Clean Water Act is to allow the parties to discuss resolution of claims short of litigation. Plaintiffs are sending this notice letter, in part, to encourage settlement negotiations that could avoid the need for litigation. We would be happy to discuss possible settlement arrangements with you, if you wish.

Additionally, should you have any facts, documents or other information which you believe might bear upon the alleged violations set forth in this letter, you should provide those to us now in order to avoid unnecessary litigation.

If you wish to discuss these matters further, you or your attorneys may contact at the address and phone number noted on the letter head above, or Justin Hayes, Program Director for ICL, at 208-345-6942 x 24, or at P.O. Box 844, Boise, ID 83701.

Sincerely,

William M. Eddie
Attorney for ICL

enc.
